

CANDIDA DIGEST™

Yeast Cleanse Formula

- **Yeast Overgrowth Support**
- **Professional strength**
- **Enzyme Formula**

Candida Digest is an enzyme formula designed for individuals seeking balance in the digestive tract. Yeast overgrowth can often contribute to feelings of gastrointestinal discomfort, poor digestion and assimilation of foods and poor elimination of waste*. If left unchecked, Candida can absorb into the bloodstream causing stress to the immune system and a wide variety of internal and external symptoms*.

Candida Digest contains a blend of enzymes and Betaine HCL to help control Candida overgrowth.

By aiding in the digestion of protein, carbohydrates and fats Candida Digest can help the body absorb nutrients, eliminate waste products and discourage the environment needed for yeast overgrowth*.

Candida Digest was formulated by Bryan & Belinda Massey, RN., owners of Massey Medicinals and a natural healthcare facility specializing in inner health and wellness.

Candida Digest is designed to help the body deal with excess “die-off” or symptoms of cleansing.

Candida Digest is designed for men, women and children. Children under 50 lbs. may take half the adult dose.

To maximize results take on an empty stomach along with the Candida Freedom™ formula.
